Re: Petition by AT&T Communications of the South Central  
States, Inc. and TCG Ohio for Arbitration of Certain  
Terms and Conditions of a Proposed Agreement With  
BellSouth Telecommunications, Inc. Pursuant to 47  
U.S.C. Section 252  
PSC 2000-465

Dear Mr. Dorman:

The Commission's December 15, 2000, procedural order in this case requires BellSouth to file today relevant cost studies, including workpapers, and any other documents and information necessary to resolve outstanding issues. BellSouth references the cost studies and work papers filed in Administrative Case 382, An Inquiry Into the Development of Deaveraged Rates for Unbundled Network Elements. As was discussed in the informal conference held on this date, additional cost studies may need to be introduced to Administrative Case 382 as a result of this arbitration.

Sincerely,

Creighton E. Mershon, Sr.
